End Application:
Hp 3852a data acquisition and contron system
Unit Type:
Multiplexer
Special Features:
Mfg name-fet multiplexer
Functional Description:
Reduces the effects of real-world measurement error in a multi-channel system; optimizes thermocouple measurement accuracy; measures
strain accurately
Supplementary Features:
Multiplexes-transient dc voltages; set gains of 1, 10, or 100 on ea. Channel; 4-channel track/hold multiplexer w/signal conditioning (3.5)
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
T228-b
