Overall Length:

14.500 inches

Overall Height:

5.000 inches

Overall Width:

2.750 inches

End Application:

Project mtds

Unit Type:

Video amplifier

Special Features:

Slm consists of an optical-electronic interface, a manchester decoder, microprocessor digital to analog converter all mounted in a 7a15a tektonix vertical amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-b
