Overall Length:

24.000 inches

Overall Height:

12.000 inches

Overall Width:

20.000 inches

Functional Description:

Interface test adapter used to provide connectivity between the oscillator board cca, p/n 3d60365g01, and the ate of the summation board test station for fault isolation to the component level

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
