Overall Length:

14.000 inches

Overall Height:

3.000 inches

Overall Width:

10.000 inches

Dc Voltage Rating:

28.0 volts

End Application:

Wireless communication and control system for c-17 acft

Frequency Range:

+410.0/+470.0 megahertz

Test Item Connection Method:

Connector

Functional Description:

Functionally tests the receiver/transmitter radio (rtr) and cordless headset (ch) of the wireless communication and control system (wccs)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
