Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Major Components:

Datron p/n 4700: fluke p/n 6060b: hewlett-packard p/n's 3488a, d1182a, dt-a01: eni p/n 403la-1661: epson p/n p78sa: keithly p/n 182: precision measurements p/n's el1100, el1200, el1300, el900-3

Electrical Power Source Relationship:

Operating

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Thermal voltage devices

Phase:

Single

Special Features:

Used to calibrate a variety of thermal voltage devices; mfg name: thermal converter calibration system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
