Overall Length:

3.250 inches

Overall Height:

2.120 inches

Overall Width:

2.000 inches

End Application:

C-17 aircraft

Special Features:

6 banana plug receptacles; 4 are used to interface fft with cable; 2 interface with tsc

Functional Description:

Provides electrical load on fft to emulate on aircraft conditions during functional testing and calibration procedures. Imposes min 62kohm impedance load

Supplementary Features:

Manufacturers name: transmitter load

Fsc Application Data:

Electrical test equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
