Overall Length:
3.250 inches
Overall Height:
2.120 inches
Overall Width:
2.000 inches
End Application:
C-17 aircraft
Special Features:
6 banana plug receptacles; 4 are used to interface fft with cable; 2 interface with tsc
Functional Description:
Provides electrical load on fft to emulate on aircraft conditions during functional testing and calibration procedures. Imposes min 62kohm
impedance load
Supplementary Features:
Manufacturers name: transmitter load
Fsc Application Data:
Electrical test equipment
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Filg:
A537k0
