End Application:

An/grc-231a 10181-6003

Test Item Connection Method:

Connector

Functional Description:

Test fixture provides a simulated power amplifier circuit for dynamic diagnostic testing & troubleshooting of pa control pwb assembly

10225-1120 which is part of power amplifier rf-5032 10180-6048

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
