Overall Length:

19.600 inches

Overall Height:

5.200 inches

Overall Width:

16.800 inches

Frequency Rating:

Between 48.0 hertz and 60.0 hertz

Frequency Range Rating:

+0.010/+20.000 gigahertz

End Application:

B1BE-AS-TE4-9200

Voltage Rating:

Between 90.0 volts and 240.0 volts

Modulation Type:

Pulse

Calibrated Signal Output Range:

13 dbm

Modulated Frequency Rating:

Between 1.0 kilohertz and 1000.0 kilohertz

Phase:

Single

Special Features:

Fresolution 1 khz; accuracy porm 2db over all freq, power levels, and temps; spectral purity harmonics less than minus 55 dbc; pulse width 25 ns to 419 ms; pulse repetition 3 hz to greater than 3 mhz

Relationship To Similar Equipment:

6625-01-379-8874

Supplementary Features:

Opt 100 rear output, opt 1cp rackmount, opt 1e1 90 db output step attenuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T320-j
