Overall Length:

19.745 inches

Overall Height:

6.970 inches

Overall Width:

19.000 inches

End Application:

Tews depot ate

Functional Description:

Hthe dynamic load is remotely or locally programmable; provides loads totest lru-2, -6, & -9; has 3 digital displays to monitor volts/amps of selected voltages: provides overcurrent, voltage and reverse polarity protection: lru-2 voltages tested =+5 (a), +5v(b), +26v, -5v: lru-6 voltages = -15v, -5v, +5v, +15v, +48v: lru-9 voltages = -100v, -25v, -15v, -5v, +5v, +15v; input (operating) power requirement is 105-125 vac, 47-63 hz, single phase: rack mounted

Specification Data:

26916-084-000684 manufacturers specification

Fsc Application Data:

Electronic test eq

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
