Unit Type:

Time base generator

Special Features:

10 to 100mhz timing generator, maximum output 32vpp: pulse width can be adjusted from 10ns to 2000s with delays from 0 to 2000s: modes continous, trigger, synchronized gate, async gate, burstand external width: mate compatible

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-b
