Overall Length:

17.000 inches

Overall Width:

8.750 inches

End Application:

Digital pattern generator/analyzer 6625-01-386-1173 ew, tews depot ate

Component Type And Quantity:

1 chassis and 1 buffer and 5 printed wiring board

Special Features:

Self-contained forced air fan, rack mount in cabinet, c/o rs-4002 test set subassy 6625-01-277-9270; expansion buffer cca p/n 10011901-003, & 5 input/output cca's 10011641-002 with 100 ohm series output and 10k ohm input termination; control bus connectors shall mate with t&b ansley 50 pin series 609 or equivalent

Unpackaged Unit Weight:

65.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A5110
