End Application:

Used in cage 23338 p/n 1000-00-0569

Unit Type:

Main frame test signal

Criticality Code Justification:

Feat

Special Features:

20 mhz arbitrary waveform generattr; horizontal memory of 12k; function generator mode: sine, triangle, ramp, square, dc and the inverse of all waveforms; arbitrary generator mode: sin, cos, exp, sin/x and user defined; operational modes: continuous, triggered, gated and burst;

esd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
