Overall Length:

6.500 inches

Overall Height:

1.300 inches

Overall Width:

3.800 inches

End Application:

Advanced technologies & oceanic procedures (atops)

Furnished Items And Quantity:

Connecting cable 1, quick reference guide1

Installation Design:

Hand held

Operation Method:

Current

Functional Description:

Used to control the test steps prescribed for the 2800cs2 color monitor. Provides an led readout of all test parameters measured and provides the capability to program those parameters into the multi purpose console

Reference Data And Literature:

Serd 1272; atops, system maintenance manual, vol 2, pg 7-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-c
