**Sweep Circuits:**

Included

**Generator Driven Feature:**

Included

**Sweep Circuit Type:**

Horizontal and vertical

**Single Trigger Sweep Duration:**

100.0 milliseconds

**Trace Storage Tube:**

Included

**Extra Long Reference Number:**

Datasys 740 op 108, op 112-1, op 121, op 123

**Special Features:**

Internal thermal plotter; 3.5 inch floppy drive; analysis firmware; scaling firmware; four channel; color monitor; eight bit resolution; sweep frequency range 150.0 megahertz

**Reference Number Differentiating Characteristics:**

As differentiated by extra long reference number

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T320-g
