Overall Length:
13.200 inches
Overall Height:
1.300 inches
Overall Width:
2.800 inches
End Application:
Hp 8153a optical multimeter mainframe; f-15e rf microwave test station
Unit Type:
Power sensor module
Special Features:
Sensor element: in/ga/as; wavelength range: 800-1700 nm; power range: plus 3 to minus 70 dbm; display resolution: 0.001 dbm, 0.001
db, 100 pw; applicable fiber type: 9/125 um-100/140 um, na lt/equal to 0.3; uncertainty: porm 2.5 pct; total uncertainty: porm 5 pct porm
50pw; noise: It 50pw; linearity: 0 to minus 50 dbm
Reference Data And Literature:
Hp 1994 product catalog
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T228-b
