Furnished Items:

Hp11730a, 1.5 meter sensor cable

End Application:

Hp70001a system mainframe & hp71000s modular measurement system

Unit Type:

Vertical plug-in or power meter module

Criticality Code Justification:

Feat

Special Features:

Single channel; automatic calibration & zeroing; freq & calibration factor entry; manual range setting w/save & recall; compatible w/hp8480 series power sensors; porm 0.02 db or porm 0.5 pctaccuracy; 100 khz to 50 ghz sensor dependent frequency; m70 to p44 dbm (100 pwto 25 w) sensor dependent power range; electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
