Overall Length:

1.112 inches

Overall Width:

0.054 inches

End Application:

Electronic test equip; lgm030g

Usage Design:

Hold 90 series test probes

Attachment To Item Supported Method:

Two mounting holes-0.0368 and 0.0378

Special Features:

Socket tube is beryllium copper, heat treated, id and od nickel silver clad; plug housing is nickel silver, id precious metal clad; used with wp30 wire plug

Material:

Beryllium copper & nickel silver

Surface Treatment:

Nickel silver clad & precious metal clad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T08100
