Overall Length:

8.000 inches

Overall Height:

3.000 inches

Overall Width:

12.000 inches

End Application:

Supports repair of anti radiation missile (arm) decoy -- protects radar from missile attack

Special Features:

Low voltage power supply test fixture for 253015-1

Reference Data And Literature:

An/tlq-32

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
