Major Components:

Pentascanner; 2-way injector; serial cable; two rj-45 patch cables; pentascanner user guide; quick reference guide; 2-way injector user guide; two ac adapters; & option cb3570-05 n-series adapter

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Performs certification, diagnostic tests, & determines pass/fail indication of e1a 568a network standard on category 5 & iso class d cabling, 100 mhz lans

Operating Test Capability:

Near-end crosstalk; attenuation; resistance; impedance; length; & capacitance

Special Features:

Requested name test set network cable; mfgr name is pentascanner; graphically displays wire map; prints reports; 500 autotest storage; handheld; 2-way injector provides near-end crosstalk & attenuation-to-crosstalk ratio on both the wiring closet & workstation ends of installed link

Supplementary Features:

Actual mfgr is microtest; distributor is combyte; combyte/79746 is in status u-restraint therefore cannot be the cc/vc 3/2 part number

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T228-a
