Mounting Type:

Bench

Frequency Range Rating:

+0.010/+26.500 gigahertz

Calibrated Signal Output Range:

P20 to m110 dbm

Functional Classification:

Bb-1.1

Supplementary Features:

Opt-001 adds step attenuator; opt-008 1hz frequency resolution; opt-h53m35dbc harmonics, p20dbm reverse power protection, 50khz to 1mhz fm modulation rates, peak fm deviation specified, internal reference oscillator aging rate specified, standard brodge detector replaced with directional coupler and detector able to withstand p20dbm reverse power and fm gain deviation accuracy (10%) at 100khz

Specification Data:

98750-cid 104.2 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
