## NSN 6625-01-425-7606

Electronic Test Digital Data Analyzer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6625-01-425-7606

Ac Voltage Rating:
Between 115.0 volts and 220.0 volts
Frequency Rating:
Between 48.0 hertz and 63.0 hertz
End Application:
Lantirn
Electrical Power Source Relationship:
Operating
ndicator Type:
Cathode ray tube
Phase:
Single
Special Features:
An altered item-modified by martin marietta for pack mounting by removing front bezel band and installing a flush mounting bezel; cables
mounted and secured iaw engineering drawing; accessory hardware removed as excess
Functional Description:
Full featured logic analyzer; 34 channels
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
Yes - demil/mli
Filg:
Г263-с
