Overall Length:

17.000 inches

Overall Height:

3.100 inches

Overall Width:

10.000 inches

Dc Voltage Rating:

5.0 volts and 15.0 volts

Switch Position Quantity:

2

End Application:

An/mst-t (v) mini-mute electronic warfare training set

Test Item Connection Method:

Connector

Switch Quantity:

6

Functional Description:

Used to interface to the transmitter bite chassis during functional testing to simulate transmitter signals and allow for i/o signal verification.

Used for organizational and depot maintenance

Relationship To Similar Equipment:

Similar to the transmitter simulator ste654e7646

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
