End Application:

Used w/6625014332218 joslyn surge protection test set on milstar lrus

Test Item Connection Method:

Connector

Special Features:

Requested name transient protection devices interface test adapter; self-contained complete w/cables and adapters; briefcase design; 128 banana jacks plus ground; 4 input connectors for interfacing with uut

Functional Description:

Gused w/joslyn surge protection test set p/n 4010-01-m and provides interface to the milstar uuts for capacitance, dc leakage, clamping voltage (dynamic breakdown), and dc breakdown voltage tests
