Overall Length:

17.000 inches

Overall Height:

15.000 inches

Overall Width:

6.000 inches

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Internal Battery Accommodation:

Not included

Voltage Rating:

90.0 pounds per hour dry and 260.0 pounds per hour with retaining chain

Product Name:

High performance video signal generator

Phase:

Single

Special Features:

For testing super high resolution monitors used in medical imaging and high power workstations. Pizel freq 5-440 mhz; horizontal scan to 330 khz; independent timin/dot clock settings; storage & recall to 40 timing and pattern programs; 256 colors & gray levels at all frequencies; smpte & 256 level ramp patterns; analo (50/75 ohms) ; ttl, ecl outputs; rs-232c, gpib interfaces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
