Overall Length:

20.000 inches

Overall Height:

5.000 inches

Overall Width:

18.000 inches

Ac Voltage Rating:

240.0 volts

Dc Voltage Rating:

Between 11.0 volts and 18.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Electrical Power Source Relationship:

Alternate operating

Recording Method:

Sensitized paper

Total Channel Quantity:

30

Information Recorded:

10 to 30 waveform channels

Special Features:

With memory data capture option; up to 512k samples of data to ram

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T198-a
