Diameter:

0.500 inches

Length:

1.832 inches

Mounting Hole Diameter:

0.500 inches

Current Type:

Dc

Dc Voltage Rating:

6.0 volts

End Application:

8520390-901 program cartridge, 8520305-901 digital processor, f-15i

Contact Type:

Solder lug

Electrical Connection Quantity:

4

Mounting Facility Type And Quantity:

1 threaded case

Coil Dc Resistance:

Between 3.4 ohms and 1200.0 ohms

Case Material:

Aluminum

Product Name:

Push built in test equipment (bite indicator with dual coil

Special Features:

This indicator has dual coil (similar to 6625-01-4xx-xxxx w/ single coil) notice "d" in p/n; may be manually or electrically reset; when coil is energized, electrical impulse causes display ball to change to set (white) or fault (black) color; when flux from reset magnet is allowed to flow in circuit, display ball spins to "reset" color which is black; indicator operates with a 50 millisec pulse length; display status is retained after pulse disappears, until reset

Supplementary Features:

Weighs 14 grams; operating temperature m65 to p125 degrees cel; leads shall be 30 ang polytetrafluoroethylene wire; maximum altitude 100, 000

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532r0
