**Overall Length:**

21.700 inches

**Overall Height:**

5.800 inches

**Overall Width:**

15.400 inches

**Current Type:**

Ac

**Frequency Rating:**

Between 50.0 hertz and 400.0 hertz

**Voltage Rating:**

Between 100.0 volts and 240.0 volts

**Screen Size:**

8 by 10 centimeters

**Product Name:**

Manufacturers suggested name combiscope

**Special Features:**

Bandwidth 200mhz; rise time 2.75ns; sample rate real time 200ms/s; equivalent time 25gs/s; max acquired signal freq 200mhz; 4 channels; acquisition memory 8k; rs-232 std; option 993 is standard north american 120v/15a, 60hz line cord ieee-488+em+mp+auxout/exttrig; operation changes from analog display to digital storage operation and back; includes autoranging and math plus features

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T320-g
