End Application:

Supports calibration of sd14, sd20, sd22, sd24, sd26, sd32, tds820, 11801, 11802 and other equipment

Special Features:

Manufacturers suggested name is calibration step generator; c/o 5.65x5.20x2.55 in. Control unit, 3.25x0.95x2.90 in. Remote head, 115v plug-in power supply, and 1m interconnect cable

Functional Description:

Capable of certifying sampling head acquisition performance to a controlled internal tek standard acquisition unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
