Cross Sectional Shape:

Twist

End Application:

Hc-130 coast guard aircraft

Termination Type:

Prod terminal 2nd end all conductors

Leadlength:

80.000 inches

Strand Quantity Per Conductor:

16 single conductor

Conductor Form:

Stranded all conductors

Strand Awg Size Per Conductor:

32 all conductors

Terminal Lug Aperture Size:

0.710 inches both ends all conductors

Material:

Rubber 1st position primary insulation all conductors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
