**Cross Sectional Shape:**

Twist

**End Application:**

Hc-130 coast guard aircraft

**Termination Type:**

Prod terminal 2nd end all conductors

**Leadlength:**

80.000 inches

**Strand Quantity Per Conductor:**

16 single conductor

**Conductor Form:**

Stranded all conductors

**Strand Awg Size Per Conductor:**

32 all conductors

**Terminal Lug Aperture Size:**

0.710 inches both ends all conductors

**Material:**

Rubber 1st position primary insulation all conductors

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A077a0
