Cross Sectional Shape:
Twist
End Application:
Hc-130 coast guard aircraft
Termination Type:
Prod terminal 2nd end all conductors
Leadlength:
80.000 inches
Strand Quantity Per Conductor:
16 single conductor
Conductor Form:
Stranded all conductors
Strand Awg Size Per Conductor:
32 all conductors
Terminal Lug Aperture Size:
0.710 inches both ends all conductors
Material:
Rubber 1st position primary insulation all conductors
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A077a0
