Unpackaged Unit Length:

624.700 millimeters

Unpackaged Unit Width:

425.000 millimeters

Unpackaged Unit Height:

177.000 millimeters

Product Name:

1800 watt load mainframe

Special Features:

Six slots for load module plug-ins; hp-ib control of current, voltage and resistance; continuous and pulse modes

Unpackaged Unit Weight:

9.500 kilograms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
