Circuit Current For Which Designed:

Ac

End Application:

Weapons system-electric power generator system

Indicator Type:

Dial w/pointer

Installation Design:

Panel

Frequency Response Range:

+25.000/+500.000 hertz

Power Source:

External

Measurement Range:

+0.0/+2000.0 amperes, ac single indicator single range

Special Features:

3 1/2 inches; transformer-rated; 0-5 amps; pivot and jewel; iron vane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
