Overall Length:

4.500 inches

Overall Height:

11.500 inches

Overall Width:

8.250 inches

Power Source:

External and self-contained

Voltage In Volts And Current Type:

220.0 ac

Optical Fiber Tested Type:

Multimode and single-mode

Special Features:

Sealed lead acid battery pack; op temp 0 to 40 degrees c; meets cdrh class i laser eye safety requirements; w/std otdr universal connector; 3.5 in hi density disk storage; w/mini otdr user manual; 110/220 vac switchable ac charger/adapter; rechargeable battery pack; universal adapter; measures 2-point loss; 1sa db/distance; db/distance; 1sa 2 pt loss; orl; fast, medium or slow scan mode; automatic or manual; 7 in diagonal lcd w/backlight display

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A504n0
