**Frequency Rating:**

400.0 megahertz

**Sweep Circuits:**

Included

**Sweep Circuit Type:**

Horizontal

**Special Features:**

4 channels; up to 500 ps/div timing resolution; auto setup; automatic measurements; save and recall front-panel setups; 1 pct timing accuracy; bright microchannel plate display; tri-level sync triggering for hdtv video signals; counter/timer/trigger - 7 digit crt readout display for frequency (0.5hz to 150mhz), period (6.666667 ns to 2 s), totalize (to 9, 999, 999) and delay by events triggering (up to 4, 194, 303); universal euro 220v, 50hz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T320-g
