Frequency Rating:
400.0 megahertz
Sweep Circuits:
Included
Sweep Circuit Type:
Horizontal
Special Features:
4 channels; up to 500 ps/div timing resolution; auto setup; automatic measurements; save and recall front-panel setups; 1 pct timinig
accuracy; bright microchannel plate display; tri-level sync triggering for hdtv video signals; counter/timer/trigger - 7 digit crt readout display
for frequency (o.5hz to 150mhz), period (6.666667 ns to 2 s), totalize (to 9, 999, 999) and delay by events triggering (up to 4, 194, 303);
universal euro 220v, 50hz
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T320-g
