Frequency Rating:

400.0 megahertz

Sweep Circuits:

Included

Sweep Circuit Type:

Horizontal

Special Features:

4 channels; up to 500 ps/div timing resolution; auto setup; automatic measurements; save and recall front-panel setups; 1 pct timing accuracy; bright microchannel plate display; tri-level sync triggering for hdtv video signals; counter/timer/trigger - 7 digit crt readout display for frequency (0.5hz to 150mhz), period (6.666667 ns to 2 s), totalize (to 9, 999, 999) and delay by events triggering (up to 4, 194, 303); universal euro 220v, 50hz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
