Operating Temperature Range:

-40.0/+85.0 degrees celsius

Maximum Voltage Rating In Volts:

28.0 dc

Inclosure Type:

Encased

Maximumlength:

13.000 inches

Maximumwidth:

11.500 inches

Maximumheight:

5.600 inches

Special Features:

Jnon incendive field mtd controller; non isolated, p14 to p28 vdc; full function operator display; analog output current p4 to p 20 ma; hart communications xmit process data to control room over 1 standard wire pair

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
