End Application:

Used with brat test stations

Product Name:

Rf test system

Special Features:

Mfg name rf test system, depot name -jtids test system; consists of rfiu modules- 96740045-10, l-bane signal conditioning module, 1ea; reference generator module 96740070-10, 1ea; cpsm modulator/demodulator module, 96740103-10 1ea; ieee modules 96740017-01; peak power meter 3ea; peak power sensor 96740019-01 1ea; frequency synthesizer 96740021-01 1ea; power amplifier 96740022-01 1ea

Reference Data And Literature:

33d7-3-438-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
