## NSN 6625-01-478-1106

Conductivity Sensor - Page 1 of 1

No

View Online at https://aerobasegroup.com/nsn/6625-01-478-1106

Overall Length:
10.100 inches
Special Features:
Compression fitting 0.500 in. Npt, 316 stainless steel; titanium electrodes; cell constant 0.05; insertion depth 7.0 in; flow rate 0.0 to 10.0
ft. Per second fully immersed; integral 20.0 ft. Cable included
Functional Description:
Used to accurately measure conductivity/resistivity for ultrapure and pure water applications
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
