**Overall Length:**

10.400 inches

**Overall Height:**

2.400 inches

**Overall Width:**

4.900 inches

**Dc Voltage Rating:**

Between 0.5 volts and 1.5 volts

**End Application:**

USED-AS-PAR-TOFU

**Calibration Accuracy Rating:**

Pom 0.1db for equal to or less than 8khz, pom 0.2db for greater than 8khz

**Special Features:**

Mfg name is multifunction acoustic calibrator. Operates on four 1.5 volt alkaline batteries, or ni-cd cells iec lr6, also has a battery low led. Included items are 1/2" microphone adaptor p/n dp 0681, 1/4" microphone adaptor p/n dp0781, 2.5mm mini jack plug 2ea. P/n jp0213, 4 ea. Alkaline batteries, instruction manual. Some of the uses are calibration and comprehensive check of 1/2" and 1/4" microphone set-ups and acoustic instruments complying with iec651 and ansis 1.4-1983 such as sound level meters, dose meters ect also checks of filter sets and other frequency-dependent instruments. Frequency range tones from 31.5hz to 16khz in octave steps, plus tone at 12.5khz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T263-b
