End Application:

Improved avionics intermediate shop (iais) for f-16 acft

Test Item Connection Method:

Binding post and direct coupling

Product Name:

Calibration adapter holding fixture

Special Features:

C/o receiver; dc power cable; software program; front/rear protective cover

Functional Description:

Lholds calibration adapter p/n 2215200-00 during calibration procedures and provides connection between the calibration standards and calibration adapter via 10 binding posts and two test points contained in unit

Reference Data And Literature:

33d7-38-306-1

Relationship To Similar Equipment:

Item is being modified from 6625-01-438-1040, p/n 9240434-03

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
