Product Name:

High voltage probe

Special Features:

Measure dc voltages up to 4kv peak. The 250 mhz probe bandwidth enables capture of fast high-voltage signals, accessory kit to this item is p/n 10077a

Functional Description:

Used to probe small power electronics components

Type/model Designation:

10076a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
