Usage Design:

Transforms waveforms from the time domain to the frequency domain, in real time

Mounting Method:

Table

Amplifier Deflection Sensitivity Provision:

Provided

Product Name:

Digitizing oscilloscope with advanced dsp (fft) math option

Special Features:

Bandwidth: 50 mhz; 4 channels; record length/channel 15 k; no floppy disk drive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-g
