**Overall Length:**

2.460 inches

**Overall Diameter:**

0.750 inches

**Operating Temperature Range:**

-45.0/+85.0 degrees celsius

**Average Life Measurement:**

Not rated

**Basic Shape Style:**

Cylindrical

**Inclosure Type:**

Encased

**Installation Design:**

Module

**Circuit Construction Type:**

Solid state

**Special Features:**

10mhz - 12.4 ghz; 0.5 db sensitivity; type n input, bnc (f) output connections

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
