Overall Length:

6.000 inches

Overall Height:

6.000 inches

Overall Width:

9.000 inches

End Application:

For use in calibrating and monitoring therapy level sound

Wattage Rating:

5.000 watts

Product Name:

Radiometer ultrasound therapy: 115v 60hz ac

Special Features:

Ultrasound therapy; 12 v, 60 hz; ac, 8 lbs; operating temp: 60-80 degrees f; must be kept from freezing; 1 or 3 hmz frequency selector switch; frequency response range 0.5 to 10 mhz; 0 to 30 watts power range; applicable transducer: 10 cm2; lineari type 0.5%, accuracy +/- 3%, resolution: 0.1 watts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
