Overall Length:

15.600 inches

Wattage Rating In Watts:

35.0

Overall Height:

3.400 inches

Overall Width:

12.400 inches

Measurement Type:

Time interval and frequency

Frequency Range:

+0.000/+300.000 megahertz

Internal Calibration Feature:

Included

Display Type:

Liquid crystal

Display Digit Quantity:

10

Display Positioned Decimal Point:

Provided

Display Storage Facility:

Included

Special Features:

Tcxo, gpib-interface options

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T297-a
