End Application:

Nsn restricted to use by the next generation radar team only; rda

Indicator Type:

Digital display

Installation Design:

Hand held

Display Type:

Liquid crystal

Special Features:

Requested name: meter, radiation hazard; non-directional measurement with three-channel measurement probe; equipped with rechargeable batteries that give about 8 hours operating time; dry batteries give approx 30 hours; calibrated; freq range, 100 khz to 3 ghz; visible warning: bright red led in the foil keypad; audible warning: built in piezoelectric device, tone sequence depending on measured value; result display, current result or maximum value since switch-on; rs232 interface; dimensions: 96mm w; 64mmh; 465mm d

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A310a0
