End Application:

THIR-DE-CHE-LONT

Special Features:

6provides stby 5v for system-wide usage; controls all fixed power modules across backplane; monitors ac and dc input voltages and currents; controls input voltage mode led's; provides rs-485 communication to external environmental monitoring circuitry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-b
